

Products, Brands & Care Standards

At Tannie Net's Daycare, we strive to use high-quality, child-friendly products that are gentle on sensitive skin and suitable for everyday use. The products listed below are our current preferred brands and may occasionally change depending on availability.

Parents are welcome to provide their own preferred products should they wish to do so. We are happy to accommodate reasonable product preferences, allergies, sensitivities, and medical requirements wherever possible.

Nappies

- Diluted White Vinegar

Floors

- Diluted White Vinegar

Laundry

- Sunlight Baby Auto & Handwashing Liquid

All bedding, towels, facecloths, bibs, and daycare-used clothing are washed on site according to our hygiene protocols.

Feeding & Bottles:

Formula Feeding

Standard infant formula is included in daycare fees.

Parents are asked to advise us of their child's current formula brand and feeding routine upon enrolment. We will purchase and prepare the appropriate formula according to the manufacturer's instructions and any feeding guidance provided by parents.

Please note that specialised medical or prescription formulas (such as Neocate, Pepticate, and similar products) are not included in daycare fees and must be supplied by parents.

Bottle Sterilisation

Bottles are:

- Washed by hand using Sunlight Liquid
- Thoroughly rinsed with hot water
- Sterilised using a Pigeon Sterilising Machine
- Each child's bottles are washed separately in clean water with their own sponge/bottle brush; and dried separately on their own drying rack.

Bottle Preparation & Reheating

- Formula bottles are prepared fresh as required and never made in advance.
- Any unfinished formula is discarded after the feed.
- Bottles are warmed according to parental preference and instructions using:
 - A Pigeon Bottle Warmer
 - Room temperature feeds
 - Alternative parent-approved methods

Milk Bottles

Parents supply 2–4 clearly marked bottles, depending on the age and feeding requirements of the child.

These bottles remain at daycare and teats are replaced periodically by the daycare in accordance with manufacturer recommendations.

Water Bottles & Cups

- Pigeon Straw Bottles
- Age-appropriate cups

Dummies (if applicable)

Parents supply two clearly marked dummies which remain at daycare. Dummies are replaced by the daycare according to manufacturer recommendations.

Bedding & Fabrics

- Facecloths and towels are 100% cotton.
- Bedding consists primarily of cotton, with fleece blankets used during winter months.
- Bedding preferences can be discussed and adapted according to family requirements.

Nutrition Standards:

Cooking Oils

- Extra Virgin Olive Oil
- Coconut Oil

Meals

We aim to source preservative-free and low-sugar ingredients wherever possible. Meals are prepared fresh and include a variety of fruits, vegetables, proteins, legumes, and starches in their most natural form.

Snacks

We occasionally make use of carefully selected baby and toddler products from brands such as:

- Oh My Goodness
- Kiddilicious
- Hey Baby!

Any packaged snack options are discussed with parents and approved before being offered to children.

Individual Care

We recognise that every child is unique. Parents are encouraged to discuss allergies, sensitivities, dietary requirements, medical needs, and product preferences with us at any time so that we can provide the safest and most appropriate care possible.
